

RSB-78
RSB-Clip

The RSB Clip RSB-78 is designed for the installation of CELLFLEX® foam-dielectric cables of 7/8" size. The clip is a universal clamp device and can be used in many mounting configurations. When replacing a cable the clip can be opened without any tools. After replacing the cable the clips are easily closed again. The RSB is the abbreviation of Rostfreier Stahlbügel and means stainless steel hanger. The hanger is resistant against all environmental influences. Due to it's mechanical construction cable deformation is impossible and deterioration of the electrical properties is avoided.
